HIGH EFFICIENCY BOILERS & WATER HEATERS

STACK FRAME

Submittal Sheet

MS-Sub-16

STACK FRAME SUBMITTAL FOR FLOOR MOUNT WATER HEATERS AND BOILERS

Job Name: _____

Model No. _____

Location: _____

Dimensions A: _____ B: _____ C: _____

Engineer: _____

Equipment Tag(s): _____

Agent/Wholesaler: _____

Contractor: _____

NOTES:

Pre-Assembled Welded Construction

Lochinvar's technology not only makes our water heaters and boilers more efficient, it means they also have a smaller footprint. So they save space as well as operating costs. And now there's a way to get greater flexibility and reliability, save even more space, and get a system that's perfectly matched to a facility—thanks to the use of a Stack Frame from Lochinvar.

No Assembly Required

Lochinvar's Stack Frame is fully factory assembled and shipped in one piece. The frame is welded using square steel tubing by certified welders ensuring integrity for the life of the frame.

Dimension Notes

- * "A" (Height) is measured from the base to the top of the upper unit.
- ** "B" (Width) is the actual frame dimension.
Additional clearance is needed for plumbing connections.

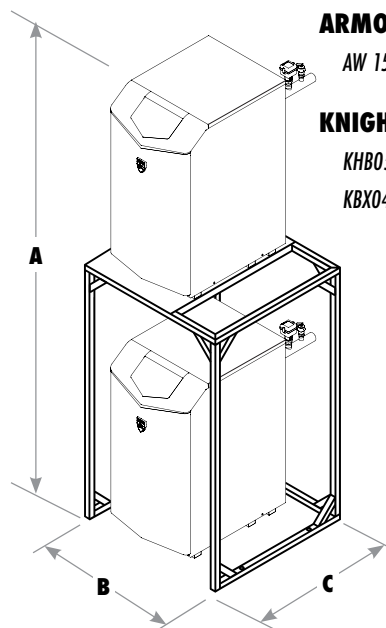

ARMOR® WATER HEATERS

AW 151–AWH1000
