

## ACCESSORIES

### GAS REGULATORS

Boilers with high turndown rates require gas regulators that provide stable pressure regulation, not only at the maximum firing rate, but also at the minimum firing rate. Lochinvar regulators are sized to accommodate inlet regulator pressures up to 2 psi or 10 psi and are 100% bubble tight lock up. All regulators are direct acting and allow for 500:1 turndown to function more effectively with today's high-turndown boilers.

How to size: Find the unit gas connection size below that matches the boiler gas connection size.

Note: For the Crest FB/OF 6001 use the 3" unit gas connection size.

#### STANDARD FEATURES

ANSI Z21.80A-2019/CSA 6.22A-2019 Class I for outlet pressures certified up to 14" W.C.

Integral vent limiter

CSA approved External Vent Limiter – no vent line required\*

500:1 Turndown

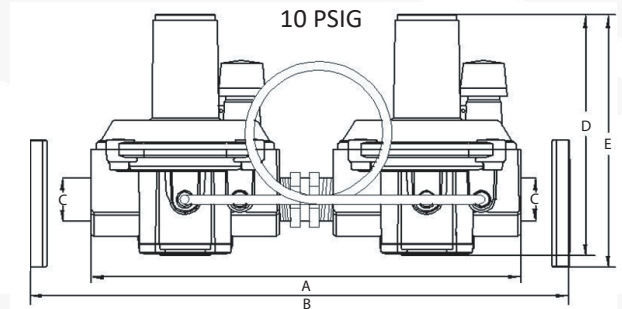

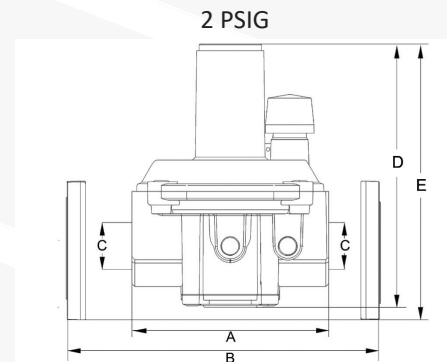

Positive 100% bubble tight lock up regulator

Suitable for NG and LP

Suitable to indoor or outdoor installation

Up to 2 PSIG and 10 PSIG inlet pressures available

10 PSIG inlet models are Over Pressure Device (OPD), Worker & Monitor style

SAP Number	Inlet Pressure Rating	Outlet Pressure Rating	Unit Gas Conn. Size	A	B	C	D	E	Ship Wt. (lbs)
