WHP125R-185R WATER SOURCE HEAT PUMP WATER HEATER

Submittal Sheet

WHPR-Sub-01

WHP WATER SOURCE HEAT PUMP WATER HEATER

Customer Name: _____

Contact Name: _____ Phone: _____

Job Location: _____

Model No. _____ Unit Qty. _____

☐ Indoor ☐ Outdoor

TANK Size (gals.) _____ Temp. Probes (qty.) _____ Harness Length (ft.) _____

Engineer: _____

Voltage to Facility: _____

Agent/Wholesaler: _____

Equipment Tag(s): _____

Contractor: _____

NOTES:

Note: R513A units produced after 9/30/24

Standard Features

- › Low GWP Refrigerant
- › Integrated Circulator Pump
- › Double wall DHW heat exchanger, direct pipe ready
- › R513A Refrigerant
- › Build America Buy America Compliant
- › Monoblock Design For Easy Installation
- › Controllable with external controls, BMS, or included tank sensors
- › 1 year Limited Warranty

Base Model Options:

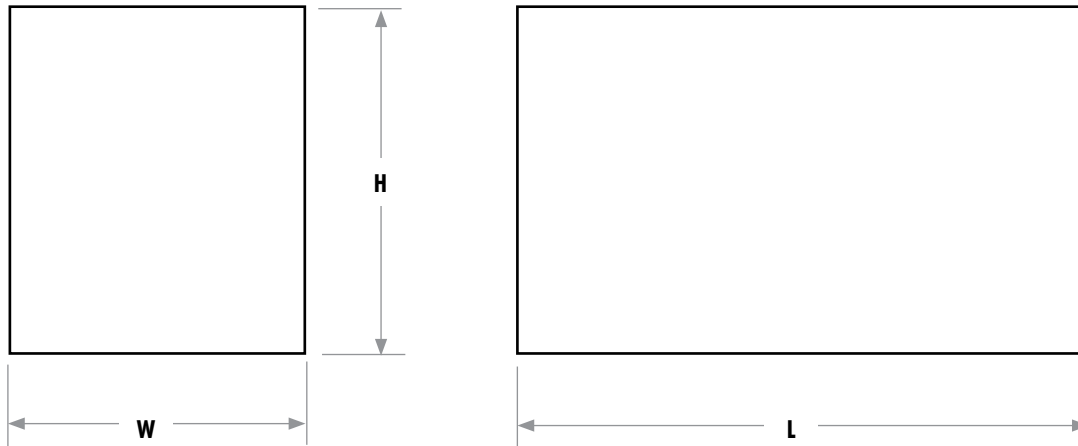

- ☐ 208-230V/3PH/60Hz **or**
- ☐ 440-480V/3PH/60Hz
- ☐ Single Pass **or** ☐ Multi-Pass

Available Options

- ☐ BMS BACnet Gateway: Single heat pump communication gateway to building management system
- ☐ Master Control Panel: Provides staging control for multiple heat pumps/tanks. Can be used with BMS Gateway
- ☐ Stacking Frame (A steel frame to allow vertical stacking of up to 2 heat pumps)
- ☐ International Crating
- ☐ 5-Year Extended Compressor Warranty
